From: Gerald B. Klebe / Examiner / Art Unit 3618  
#77087  
Tel: 703-305-0578

Subject: Case 09/922237: Correction of scanned image of Non-Final Rejection Office Action mailed 08/27/2003 that is presently in the IFW system.

Sirs: The image appearing in IFW this date for case 09/922237 Non-Final Rejection mailed 08/27/2003 is incomplete, the last three pages of the Office Action being missing from the image, apparently due to failure to scan when this action was scanned into IFW. The three pages were returned to the examiner in the green folder for this case, but should be stored with the paper copy of the Office Action they were removed from.

Those three(3) sheets, showing the Examiner's (hand-written) Mark-Up annotating Figures 6, 2, and 11-12 of reference US Patent 6,523,634 B1 are an official part of the Office Action as mailed to the Applicant and should appear in the IFW record as the last three pages of the Office action, after the page 7 signed by the examiner and Supervisory Patent Examiner.

A complete copy of the Office Action including the last three sheets of hand-annotated figures is attached hereto for your use.

If there are any questions or concerns please call Examiner G. Klebe at 305-0578, or failing to reach the examiner, call the examiner's supervisor, Brian L. Johnson, Art Unit 3618 at 308-0885.

Thank you,

Gklebe / AU 3618 / 5 February 2004
